

# Renting an e-scooter?

In Finland the driver of an electric scooter must be at least 15 years old.

It is not allowed to ride an e-scooter with a passenger.

Ride sober. The legal limit is 0.5 g/l also for e-scooter users.

When using rental e-scooters, follow the same traffic rules as cyclists.

Use cycle paths and bike lanes, do not ride on pedestrian paths. If there is no cycle path, an e-scooter user must ride on the street.

Be attentive, do not let your phone distract you.
